Antonios Bouris personal mapping

Description

Communication designer, teacher, design thinker, innovator, team player, multi-tasker, tech and gadget freak.

Challenges

Collect accurate data, suppress all assumptions, examine problems bias-free, get to know the latest technology, maintain sustainability, focus on the big picture, don't be afraid of failures, always ask why, ask for the evidence, don't take yourself too seriously.

Education / Knowledge

Collected knowledge from both the arts and technology fields, music, languages, electronics, computers, photography, graphic design, creative thinking, social media, communication design. Education never stops. Learning new things continuously.

Employments

I'm into projects. I have worked with big organizations including social enterprises, non-for-profits, art and culture, museums and orchestras, universities and companies including fashion, power, glass, publishing and recruiting.

Vision & Dreams

I'm not a dreamer. I'm a visionary. My vision is always to provide possibilities to others.

Skills

Observing and understanding people's needs, synthesizing and converting insights into solutions, strategic business thinking, creative thinking, problem solving, attracting, inspiring, creating desires and motivating people, prototyping and evaluating.

Passions

Passion for inspiring and creating opportunities, arts and design, for science and technology, for cleanliness and simplicity, for reason and evidence, for customer orientation and human centered design, for patience and focus.

Distractions

People with short vision, no curiosity and zero level of empathy, lack of rationalism, believes without evidence or scientific based proofs.

Projects

Design for an orchestra, for the design department of an American university, for an international social enterprise, for presentations of an international company, designs based on information data collection, data visualizations, design for combining technologies and for discovery of non-existent services, Research for finding services, counseling in the fields of pr, hr, social media, design and branding for various companies, creative direction, etc

Energizers

Sharing the knowledge, bad design that needs improvement, great ideas, meeting people with common vision, keeping the mind open, traveling, visual stimulation, new technology, well designed gadgets, great leaders.

Tools

Design and lateral thinking, imagination and inspiration, focus and openness, communication and collaboration, visual stimulation and exploration, observation and ideation, prototyping and improvement.

Current Situation

Focusing on projects, always looking for collaborations that will produce innovative solutions to well observed problems. More positive, more optimistic, more experienced, more global, more free than ever.
